

Microsoft

Enable ClickOnce support in Microsoft Edge

1. In Microsoft Edge, go to **edge://flags/#edge-click-once**.
2. If the existing value is set to **Default** or **Disabled** in the dropdown list, change it to **Enabled**.

3. Scroll down to the bottom of the browser window and click **Restart** to restart Edge.

Microsoft

Note: Organizations can use Group Policy to disable ClickOnce support. To check if there is an organizational policy for ClickOnce support, go to **edge://policy**. The following screenshot shows that ClickOnce is enabled across the entire organization. If this policy value is set to **false**, you will need to contact an admin in your organization.

Install and run the eDiscovery Export Tool

1. Click **Download results** on the flyout page of an export in Content Search or an eDiscovery case.

Microsoft

2. You will be prompted with a confirmation to launch the tool, Click **Open**.

If the eDiscovery Export Tool isn't installed, you will be prompted with a Security Warning,

3. Click **Install**. After it's installed, the export tool will launch automatically.
