Ubuntu

Install Shell in a box

Connect to commandline with SSH on a https connection

Step #1 Update Repositories
sudo apt-get update && upgrade -y

Step #2 Install Shell In A Box
sudo apt-get install shellinabox

Step #3 Check
Goto url https://server-ip-address:4200

Step #4 Change the default port if you want
sudo nano /etc/default/shellinabox
change port 4200 to any port you want.

Step #5 Restart Shell In A Box
sudo service shellinabox restart

Done !!!
