```
Set-MapiVirtualDirectory -Identity "TCLEX16-01\mapi (Default Web Site)"
```

Exchange

```
-InternalUrl https://outlook.thatcloudlab.com/mapi -ExternalUrl <a href="https://outlook.thatcloudlab.com/mapi">https://outlook.thatcloudlab.com/mapi</a>
```

```
Get-MapiVirtualDirectory |Select InternalUrl,ExternalUrl
```

```
#Run the following to set the URL's for ActiveSync
```

```
Set-ActiveSyncVirtualDirectory -Identity "TCLEX16-01\Microsoft-Server-ActiveSync (Default Web Site)"
```

```
-InternalUrl https://outlook.thatcloudlab.com/Microsoft-Server-ActiveSync
```

```
-ExternalUrl https://outlook.thatcloudlab.com/Microsoft-Server-ActiveSync
```

```
Get-ActiveSyncVirtualDirectory |Select InternalUrl,ExternalUrl
```

```
#Run the following to set the URL's for ClientAccessService
```

```
Set-ClientAccessService -AutoDiscoverServiceInternalUri
```

```
https://outlook.thatcloudlab.com/Autodiscover/Autodiscover.xml
```

```
-Identity TCLEXCAS01
```

```
Get-ClientAccessService |Select Identity,AutoDiscoverServiceInternalUri
```
